The matter within the next 48 hours. The matter will be taken before judge A. M. Walthall of the 41st district court by mandamus proceedings, when a demand is made for the ballot boxes contested and a subsequent refusal of the county clerk to deliver them. Judge T. A. Falvey, representing the contestees, stated that he had already advised county clerk Park Pitman not to surrender the boxes. Park Pitman not to surremeet the boxes. In the event the county clerk refuses to deliver the boxes on demand of the sub-committee, which in all probability he will, the case will be taken to the district court, after the writ of man-

damus is sued out.

Contestees Want Ali Boxes Opened.

Friday morning much to the surprise of the ring members of the sub-committee, C. W. Marshall, one of the antiring members of that committee, introduced a resolution demanding the county clerk to surrender all of the ballot boxes, returns, poll lists and tally sheets, in order that a thorough investigation might be made. The purpose of his resolution was to open every hallot box, required the hallots and compare the count count the ballots and compare the count to that of the poll lists, tally sheets and

Mr. Marshall's resolution included the 26 boxes, being the entire number, and his resolution was in accordance with the proposition that was proposed in a morning local paper to the effect that if the sub-committee would open all of the boxes, the contestees in the case would be willing to have the boxes

the boxes, the contestees in the case would be willing to have the boxes opened.

Falvey Argues Against It.

Judge Falvey argued against the adoption of the resolution on the grounds, he stated, that the committee did not have the right to open any of the ballot boxes, and, granting that it did, the right would only extend to the boxes which were being contested. He again urged the point that the notice of contest had not been filed in time, and for that reason there was no contest, and the committee had no jurisdiction over the matter. He, however, stated that the adoption of the resolution need not block any further testimony that the contestants desired to admit, and agreed that in the event it was adopted if should not.

"Representing the contestants in this "Representing the contestants in this "recinct No. 7."

The suggestion was made soon after the state of the purpose of introducing those witnesses who it was alleged could testify that when they voted their ballots were prepared for them, or they were assisted in the preparation, and they were assisted that they wanted to vote for the anti-ring candidates, and they were not able to say if the ballot had been prepared as they requested, that the affidavits of those persons be taken. It was argued that this would save a great deal of time, and that inasmuch as those witnesses would testify to those facts, he could not see why the suggestion should not see why the suggestion who voted in this way in precinct No. 7.

The suggestion was made soon after

Mr. Thurmond contended that if the contestees and the contestants would agree to be bound by the result after the ballots in every box had been recounted then he would be in favor of adopting the resolution. He argued that unless this agreement was made there would be no seems in the sub-committee. would be no sense in the sub-committee

Chairman Lea stated that the adoption of the resolution and the opening of the boxes would save a lot of time.

The resolution was withdrawn, Mr. Marshall stating at the time that he would prestating at the time that he would pre-pare another, which will probably be presented at the meeting of the sub-committee at 2 oclock Friday afternoon. Just what will be incorporated in the second resolution was not stated, but it is thought that it will be in the nature of a demand for the ballot boxes. Resolution of Contestants.

The first resolution presented by Mr. Marshall was as follows: Whereas. The testimony introduced before this sub-committee shows many irregularities in the primary election held in El Paso county, Texas, on July 27, 1912; that in precincts 2 and 3 much whisky was consumed by the election officers in the polling places on election day; many voters were intimidated at the polls; persons not authorized and

Contributed \$125,000.

When Mr. Archbold was sworn senator Clapp asked him what contribution the Standard Oil company had made to the campaign in 1904.

"Well, it made two contributions to the Republican campaign in 1904, one to Cornelius N. Bliss, of \$100,000, and one to senator Penrose of \$25,000," replied Mr. Archbold.

That it will be only a short time when the matter will be taken to the district court was plainly indicated by the antiring members of the sub-committee and Mr. Thurmond. There will be little further testimony introduced before a formal demand will be made for the hallot boxes. The only question is whether a demand will be made for all of the boxes or only those which have been attacked by the contestants in their pleadings. plied Mr. Archbold.
"Yes, some time before, either at my

"I have no absolute personal knowledge, said Mr. Archbold, "such as would justify me in testifying. Of course, I was aware of the talk about the Harriman contribution, but I had no personal knowledge of it."
